Implementation of live TTAK App.

The highlight of this year was the successful introduction of the TTAK App. The Association entered into a Smart Service agreement with Icore Pioneer Business Solutions (P) Ltd, Trivandrum. Initially each District was registered by the District Secretaries who then registered the clubs in each district. Then each club secretary did the player registration including uploading the birth certificates and or aadhaar card as the case may be. Later the Club, District and State Secretaries vetted these documents. When the Tournaments in the state were conducted each player had to register for each category with the payment and based on the same the fixtures for these tournaments were made. This system improved the quality of the Tournaments and ensured that the hosts of the various Tournaments received payments before the start of the game. It also helped in avoiding lots of misunderstandings and controversies. A special mention to all the District and Club Secretaries for the effort they took to successfully implement our software. We plan to start live viewing of matches from this year onwards.
